

Full Name Thomas Müller

Nationality Germany

Biography Thomas Müller is a Consultant of Intensive Care Medicine and Pneumology at the University Medical Centre Regensburg, ELSO Centre of Excellence and one of Germany's most active ECMO Centres with about 200 runs per year. He is head of the Medical ICU and member of the Steering Committee of EuroELSO and ECMOnet. He hosted the 4th International EuroELSO Congress in Regensburg in 2015.

His special professional interests include the treatment of severe acute lung failure and the management of patients post resuscitation. Since 1996 his department is engaged in the optimization of miniaturized ECMO devices in use for severe ARDS, circulatory failure and CO₂ removal. A focus of research is set on a better understanding of complications of ECLS.
